CVP Core

COMPANIES · VISAS · PASSPORTS

TECHNICAL OVERVIEW · 2026

Global business, residency & citizenship.

CVP Core connects companies and families with verified local partners for company formation, residency, banking, compliance and second passports across Europe, the Middle East and South America.

01

Company Setup

Incorporation, registration, banking, compliance, accounting and local operations in the destination market.

02

Visa & Residency

Golden Visa, work visas, passive income routes and family residency, explained with clear requirements and timelines.

03

Passport & Citizenship

Citizenship by investment or ancestry, document guidance and specialist partners for each nationality route.

One point of contact. Zero commission for you.

You tell us the destination and the goal. Within 48 hours we introduce 2–3 verified local partners. You compare proposals and pay the partner you choose directly. CVP Core does not take a cut of your investment.

HOW IT WORKS

A clear route, without the maze.

Four steps from the first question to a plan with names, timelines and owners. No upfront fee and no obligation.

01

Tell us your goal

Share your destination, service, family situation and timing. We do not ask for payment at this stage.

02

Receive a plan

Within 48 hours we send 2–3 verified local partners that fit your case and destination.

03

Compare and choose

Speak directly with the partners, compare proposals, timelines and costs, and choose who to work with.

04

Execute with support

Documents, deadlines and next steps organised. CVP Core stays close to the process until the move is complete.

Destinations in the network

Portugal · Spain · Hungary · Poland · Latvia · United Arab Emirates · Qatar · Brazil · Uruguay · Paraguay

What we assess

Nationality and family ties; income, assets and financial proof; professional activity and business model; documents and local requirements; timeline, budget and long-term goals.

Start with a conversation.

Tell us what you want to build. We will show you the route and connect you with people who execute it locally.
